Key Takeaways

- **Winners:** Giveback 012 (+\$30/mo, better Rx) and C-SNP Enhanced 016 (premium gone, T1/T2 now \$0). New Core 037 is the standout for non-dual members.
- **Watch out:** Choice Giveback 002's OTC drops from \$116 to \$24 per quarter — members who use that card heavily will feel it. Medical cost-sharing and MOOPs rise on most returning plans.

- **Dual/C-SNP food cards trimmed slightly** (\$15/mo on 013 and 015) but remain the market's richest at \$427–\$453/mo; Dual Full 013 eligibility tightens to full-benefit duals only.
- **Rx note:** 2026 blue charts show LIS/Medicaid cost-share copays (\$1.60/\$4.90); the 2027 document shows plan-level tiers. Dual and LIS members pay the lower of the two, so those rows aren't a like-for-like increase.
- **Pharmacy angle:** 2026 charts price Rx copays at named independent pharmacies (Cannon, TrueCare) — preferred-network placement with Devoted for 2027 is worth pursuing, and the \$185–\$453/mo Food & Home + \$50/qtr OTC cards are pharmacy-redeemable revenue.
