

Justin, your UHC plan is changing in 2026.

Here's the short version, and one easy thing you can do.

Hi Justin, I'm the agent who helped set up your plan last year. Plans change every fall, so I read through your 2026 updates for you. Here's what matters most:

- ▲ Seeing a **specialist** costs a little more and needs a referral now.
- ▲ A **hospital stay** adds one more day of copays.
- **Dental** now covers half of major work, not all of it.
- Good news: your **OTC card** goes up to \$70 a month and works in the store now.

Want to make sure this is still your best plan?

Call or text me and we'll spend about 15 minutes on it together. It's free, no pressure.
(704) 555-0134

Please decide by December 7.

If you're happy, do nothing and it renews on its own.
