

Hello,

As a valued client, I'm writing to remind you that Medicare Annual Enrollment ends on **December 7th**. My responsibility as your agent is to keep you informed about changes to your plan and to help you explore your options for 2026. I am dedicated to helping you save money and find the right coverage for your needs.

This is my final communication before the end of Annual Enrollment. If we have already connected this year, please disregard this letter.

General Reminders

- Annual Enrollment ends on December 7th.
- Negative changes for UnitedHealthcare, BCBS, and Aetna Medicare advantage plans.
- If you do nothing your current plan will auto renew for 2026 (unless it's an Aetna plan being discontinued).

Schedule a free Medicare review by calling or texting me at **704-935-4796**. While I have availability now, it will be challenging to accommodate everyone after Thanksgiving.

If you've made a change with another agent or telemarketer, it's not too late to reconsider. If I'm not your agent for 2026, **I won't be able to help you** navigate potential issues.

There's a lot of misinformation and scams out there, and many factors to consider, such as networks, drug lists, and medical coverage. For example, independent pharmacies will be non-preferred with HealthSprings (Cigna) Medicare Advantage in 2026. Only trust someone you can hold accountable in 2026!

I truly value your business and our relationship. If you know anyone who needs Medicare assistance, please refer them to me. It's not too late to get help!

Best of Health,

Timothy Winslow, Licensed Medicare Agent
