Resources

Your partners for serving the senior market

It's important for you to do business with a company that focuses on your clients' well-being — and yours. Wellabe's Hospital Indemnity insurance has quality built in that benefits you and your clients. When you partner with Wellabe, you can expect:

Ease of doing business

Throughout the entire process — quoting, application submission, underwriting, commissions, and claims — we provide industry-leading technology and processes to make doing business with us simple and convenient.

Tools to grow your business

Wellabe provides sales training, enrollment tools, and an online ordering system that make requesting sales and marketing materials easier than ever. Log in to the Wellabe health agent portal at wellabe.com/signin to access all these helpful tools and resources.

Strong agent support

When you need personal assistance, count on our knowledgeable and friendly Agent Sales Support.

Outstanding customer service

Our Customer Success team is committed to making our customers feel valued and appreciated by assisting them at their time of need. Customers can also access forms and their policy information online via our customer portal by registering for an account at wellabe.com. And with the Wellabe: Be Well mobile app, they can check policy information from wherever they are.

MyEnroller

Electronic application tool

We understand how important you are to our business and how you need industry-leading technology and tools to be successful. That's why we offer MyEnroller, our electronic quoting and application tool. MyEnroller is available for desktop computers, laptops, or tablets and requires an internet connection. Completing and submitting applications through MyEnroller is fast and easy because it:

- Takes you through the application process step by step and ensures the correct state application version and required forms are all submitted
- Allows for quick application processing time by bypassing the data entry process and automatically loading into our system
- Accepts e-signatures on applications

Visit apply.myenroller.com to get started.

MyEasyMatch

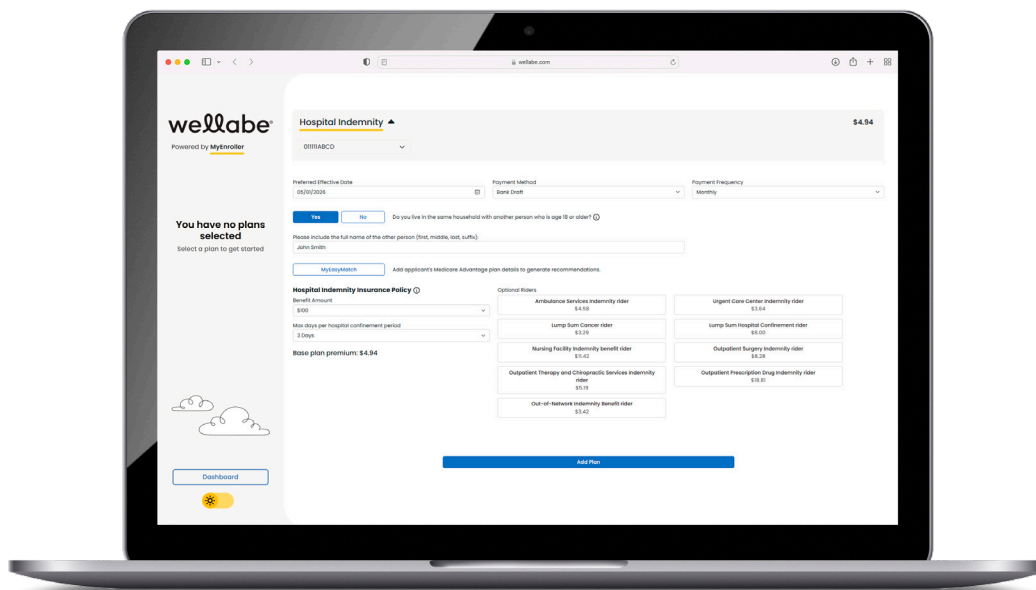

Easily create a customized Hospital Indemnity quote for Medicare Advantage clients to help them cover the health care gaps left by their plan. Start a Hospital Indemnity application in MyEnroller, choose the client's Medicare Advantage plan, and MyEasyMatch will recommend a Hospital Indemnity plan that fills the gaps. You can then adjust the benefits to find the premium and coverage that works best for your client and submit the application in just minutes.

Visit apply.myenroller.com to get started.

Quick Quote

Easily select benefit options to create a customized quote in seconds with no username and password requirements.

Visit apply.myenroller.com/quickquote to get started.

Statement of ethics

As an appointed representative, you have a responsibility to develop and maintain relationships between customers and Wellabe. You can only safeguard the integrity of these relationships by meeting the standards of professional and personal ethics.

Your duty is to help customers prepare for medical expenses through the benefit of Hospital Indemnity insurance. Your customers trust you to act in their best interests. To honor the trust that your customers place in you, it is important your recommendations provide the best solutions to meet their needs.

To serve as a Wellabe agent, it's important that you behave professionally and courteously in your dealings with your fellow agents and customers. Please keep in mind the following:

- Adhere to all federal and state laws and regulatory requirements as they apply to the selling of Hospital Indemnity insurance
- Be familiar with the products you sell
- Increase your knowledge and skills through continuing education
- Consider the suitability of the insurance product for the customer
- Keep confidential any information entrusted or obtained in the course of business
- Conduct all professional activities honestly and ethically
- Advise customers promptly of any error, noncompliance, or omission you know about or of which you have been given notice

In your role of providing care to customers, you serve in a unique position as liaison between the purchasers and suppliers of Hospital Indemnity insurance. While meeting the obligations to Wellabe and the needs of the customer, balance is needed to avoid conflicts of interest. Please assist Wellabe in establishing an atmosphere of trust, cooperation, and harmony as we work together to care for customers.

2. In ML, guaranteed issue ages are 60 to 85.

4. In KS, the issue ages are 50 to 85 years old. In MI, the issue ages are 60 to 85 years old.

Included benefits⁵

Benefits	
Hospital Confinement Indemnity benefit	Pays \$100-\$750 ⁶ per day (in increments of \$25) for days one through 3, 6, 7, 8, 9, 10, 21, or 31 with a 60-day benefit period lifetime restoration. No minimum number of hours required as inpatient.
Observation Unit Indemnity benefit	Pays 100% of inpatient benefit for a maximum of six days per calendar year with no minimum or maximum required hours per stay.
Mental Health Indemnity benefit	Pays \$175 per day of confinement for a maximum of seven days per calendar year for a covered mental or nervous disorder.
Emergency Room Indemnity benefit	Pays \$150 per day for a maximum of four days per calendar year for covered sickness ⁷ or injury.
Transportation and Lodging Indemnity benefit	If traveling at least 50 miles to receive treatment for a covered loss, pays \$100 per day (up to \$1,000) for a maximum of 10 days per calendar year.
Pet Boarding Indemnity benefit ⁸	Pays \$50 per day for each day up to 10 days.

Hospital Confinement Indemnity benefit

We will pay the Hospital Confinement Indemnity benefit amount, as shown in the chart, for each day the policyholder is hospital confined as a result of a covered loss due to a sickness or injury. Benefits are not payable beyond the hospital confinement maximum benefit period, as shown in the chart, for any one hospital confinement period. This benefit is not payable for confinement in a hospital due to a mental or nervous disorder. We will only pay one benefit per day between Hospital Confinement Indemnity benefit, Observation Unit Indemnity benefit, and Mental Health Indemnity benefit.

Observation Unit Indemnity benefit

We will pay the Observation Unit Indemnity benefit amount, as shown in the chart, for each day the policyholder receives services in an observation unit of a hospital as a result of a covered loss due to a sickness or injury. Benefits are not payable beyond the observation unit calendar year maximum, as shown in the chart. We will only pay one benefit per day between Hospital Confinement Indemnity benefit, Observation Unit Indemnity benefit, and Mental Health Indemnity benefit.

5. Benefit availability and options may vary by state.

6. Maximum daily benefit of \$600 in IN, OR, VA, and WA.

7. This benefit covers only injury in IN, OR, VA, and WA.

8. Not available in IN, OR, PA, VA, or WA.

Mental Health Indemnity benefit

We will pay the Mental Health Indemnity benefit amount, as shown in the chart, for each day the policyholder is hospital confined as a result of a covered mental or nervous disorder. Benefits are not payable beyond the mental health calendar year maximum, as shown in the chart. We will only pay one benefit per day between Hospital Confinement Indemnity benefit, Observation Unit Indemnity benefit, and Mental Health Indemnity benefit.

Emergency Room Indemnity benefit

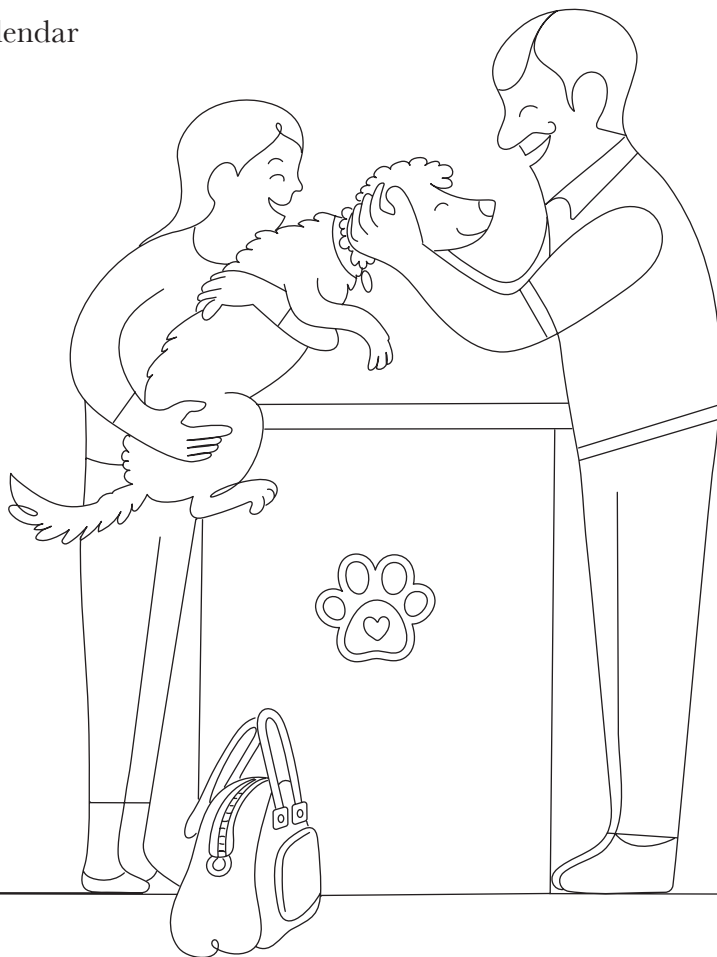

We will pay the Emergency Room Indemnity benefit amount, as shown in the chart, for each day the policyholder receives services in a hospital emergency room or hospital-affiliated emergency care facility as a result of a covered loss due to a sickness⁷ or injury. Benefits are not payable beyond the emergency room calendar year maximum, as shown in the chart.

Transportation and Lodging Indemnity benefit

We will pay the Transportation and Lodging Indemnity benefit amount, as shown in the chart, for each day expenses are incurred for transportation or lodging while the policyholder receives treatment in a hospital or medical facility, located more than 50 miles from their residence, as a result of a covered loss due to a sickness or injury. This benefit is payable only once per day, regardless of whether the policyholder incurs expenses for both transportation and lodging on the same day. They do not need to incur expenses for both transportation and lodging to be eligible for this benefit. Benefits are not payable beyond the transportation and lodging calendar year maximum, as shown in the chart.

Pet Boarding Indemnity benefit⁸

We will pay the Pet Boarding Indemnity benefit amount, as shown in the chart, for each day the policyholder boards a family pet, regardless of the number of pets, with a pet boarding provider while the policyholder receives treatment in a hospital or medical facility, as a result of a covered loss due to a sickness or injury. Benefits are not payable beyond the pet boarding calendar year maximum, as shown in the chart.

7. This benefit covers only injury in IN, OR, VA, and WA.

8. Not available in IN, OR, PA, VA, or WA.

Optional riders⁹

Your clients can choose from optional benefits for an additional cost.

Optional riders	
Ambulance Services benefit rider	Pays \$250 per day for ground or air transportation, for a combined maximum of four days per calendar year. Subject to a lifetime maximum of \$2,500.
Outpatient Therapy and Chiropractic Services benefit rider¹⁰	Pays \$50 per day, with a choice of 15 or 30 days per calendar year, for outpatient therapy services for charges incurred as a result of a covered sickness or injury. Pays \$50 per day, for up to five days per calendar year, for chiropractic services.
Skilled Nursing Facility benefit rider¹¹	Pays \$100, \$150, or \$200 per day, for up to 50 days, when the insured is confined to a skilled nursing facility. Restoration of benefit is allowed once during the lifetime of this rider.
Lump Sum Cancer benefit rider	Pays \$1,000; \$2,500; \$5,000; \$7,500; or \$10,000 with first diagnosis of internal cancer or malignant melanoma. Maximum of one payment, and coverage will terminate after payment of benefit. Only available for persons up to age 80.
Lump Sum Hospital Confinement benefit rider	Pays \$250; \$500; \$750; \$1,000; \$1,500; \$2,000; or \$2,500 ¹² , for up to three benefit periods each calendar year, when the insured is confined to a hospital.
Outpatient Surgery benefit rider	Pays \$250; \$500; \$750; \$1,000; \$1,500; or \$2,000 ¹³ , for up to two days each calendar year, for outpatient surgery.
Urgent Care Center benefit rider	Pays \$50 per day, for up to four days each calendar year, for urgent care services.
Outpatient Prescription Drug benefit rider¹⁴	Pays \$20 per generic or brand name prescription filled at a licensed retail or mail-order pharmacy, up to \$300 or \$600 per year.
Out-of-Network benefit rider¹⁵	Pays \$300, \$600, or \$900 up to three times per year for each day of hospital confinement or observation in an out-of-network facility as a result of a covered loss due to sickness or injury.

9. In PA, each rider name begins with "Supplemental." Optional riders and benefit options may not be available in all states.

10. Not available in KS.

11. This rider is called the Nursing Facility Benefit rider in IA and Nursing Facility Indemnity Benefit Rider in WA.

12. Clients in IN, OR, VA, and WA can only choose between \$250, \$500, or \$750.

13. Clients in IN, OR, VA, and WA can only choose between \$250; \$500; \$750; or \$1,000.

14. This benefit is not subject to the pre-existing conditions limitations in the policy. This optional rider is not available in IL, IN, KS, MN, OR, VA, or WA.

15. Benefits are eligible when a policyholder has a primary health plan that uses a network of contracted providers, like PPOs, HMOs, or similar. This optional rider is not available in IN, MN, MO, NC, OR, PA, TX, VA, or WA.

Ambulance Services benefit rider

We will pay the Ambulance Services Indemnity benefit amount, as shown in the chart, for each day the policyholder receives ambulance transportation services due to a covered sickness or injury. Ambulance services must be provided by a licensed ambulance service within 96 hours of the injury or the onset of sickness. Benefits are not payable beyond the ambulance services calendar year maximum and are subject to the ambulance services lifetime maximum benefit amount.

Outpatient Therapy and Chiropractic Services benefit rider¹⁰

We will pay the Outpatient Therapy Indemnity benefit amount, as shown in the chart, for each day the policyholder receives one of the following therapies on an outpatient basis for treatment of a covered sickness or injury:

1. Occupational therapy
2. Physical therapy
3. Speech therapy

This rider will not pay more than one Outpatient Therapy Indemnity benefit amount per day. Benefits are not payable beyond the outpatient therapy calendar year maximum.

We will pay the Chiropractic Services Indemnity benefit amount for each day the policyholder receives chiropractic services as a result of a covered loss due to a sickness or injury. Benefits are not payable beyond the chiropractic services calendar year maximum.

¹⁰. Not available in KS.

Skilled Nursing Facility benefit rider¹¹

When the policyholder is eligible for and receives skilled nursing care, we will pay the Skilled Nursing Facility Indemnity benefit amount, as shown in the chart, for each day of the skilled nursing facility benefit period that they are confined to a skilled nursing facility as a result of a covered loss due to a sickness or injury when they meet the following qualifications:

1. The policyholder must be confined to a skilled nursing facility and that confinement must begin within 30 days following discharge from a hospital confinement of at least three or more consecutive days.
2. Confinement must be for the purpose of receiving skilled nursing care for the same sickness or injury for which we paid benefits for the hospital confinement.
3. The physician must certify the need for the confinement to the skilled nursing facility.
4. The policyholder must receive skilled nursing care.

Benefits are not payable beyond the skilled nursing facility benefit period, unless the policyholder qualifies for the restoration of skilled nursing facility benefit period. Confinement to a skilled nursing facility for the same or related condition within 30 days of discharge will be treated as a continuation of the prior skilled nursing facility confinement period. Successive confinements separated by more than 30 days will be treated as a new and separate skilled nursing facility confinement period.

Restoration of skilled nursing facility benefit period

If a policyholder receives benefits under this Skilled Nursing Facility Indemnity benefit rider and uses up all or a portion of the skilled nursing facility benefit period shown in the chart, unless the rider is issued after the policy date, we will restore the skilled nursing facility benefit period once during the lifetime of this rider under the following conditions:

1. The policyholder must not require or receive skilled nursing care for 180 days in a row for the same cause or causes for which the previous skilled nursing facility confinement period began; and
2. The policyholder must not have been confined in a skilled nursing facility for a period of 180 days in a row.

The skilled nursing facility benefit period will be restored only once during the lifetime of this rider; however, in order for the skilled nursing facility benefit period to be restored, the policy and this rider must be kept in force by the continued payment of policy and rider premiums that become due.

Lump Sum Cancer benefit rider

We will pay the Lump Sum Cancer benefit amount, as shown in the chart, when the policyholder is first diagnosed as having internal cancer or malignant melanoma, provided they have met the conditions set forth in the rider. They are limited to one lump sum cancer benefit payment while the rider and policy are in force. The coverage under the rider automatically terminates upon payment of the lump sum cancer benefit.

11. This rider is called the Nursing Facility Benefit rider in IA and Nursing Facility Indemnity Benefit Rider in WA.

Lump Sum Hospital Confinement benefit rider

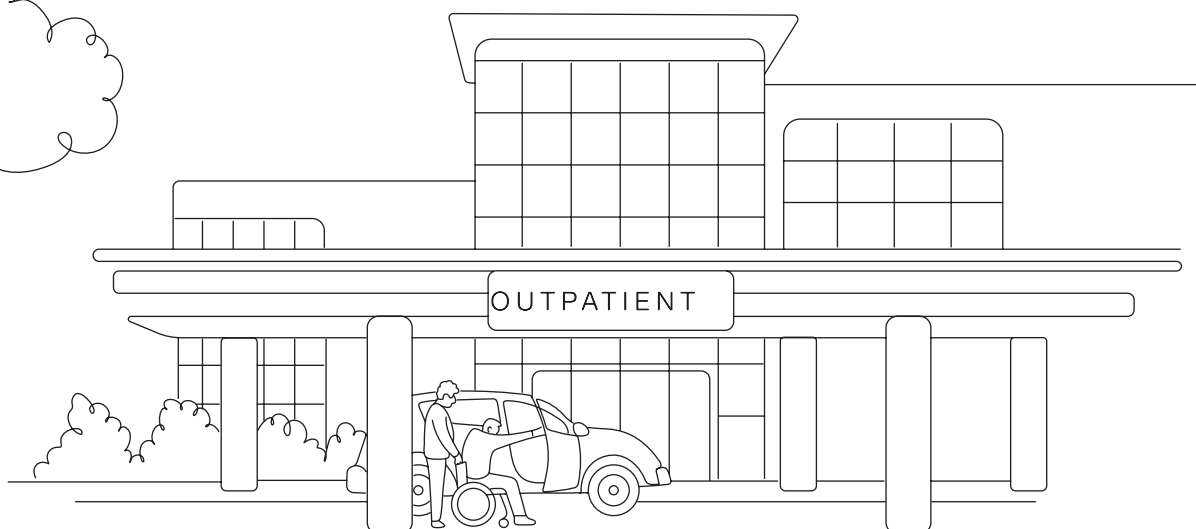

We will pay the Lump Sum Hospital Confinement benefit amount, as shown in the chart, when the policyholder is hospital confined as a result of a covered loss due to a sickness or injury. Benefits are payable only once during any one hospital confinement period. No benefits are payable beyond the lump sum hospital confinement calendar year maximum benefit period. This benefit is not payable for confinement in a hospital due to a mental or nervous disorder. This benefit is paid in addition to the daily hospital benefit included in the base policy.

Outpatient Surgery benefit rider

We will pay the Outpatient Surgery Indemnity benefit amount, as shown in the chart, for each day the policyholder has surgery in an ambulatory surgical center or outpatient facility of a hospital as a result of a covered loss due to a sickness or injury. Benefits are not payable beyond the outpatient surgery calendar year maximum.

In addition to the exclusions and limitations contained in the policy, this rider will not pay benefits for (may vary by state):

1. Surgery not performed in an ambulatory surgical center or outpatient facility of a hospital.
2. Surgery performed for cosmetic purposes.
3. Bronchoscopy, colonoscopy, cystoscopy, gastroscopy, ureteroscopy, or esophagogastroduodenoscopy (EGD).
4. Cardiac catheterization, including angioplasty and stenting.
5. Carotid angioplasty or stenting.
6. Any procedure done through a needle including needle biopsies and chemical or radiofrequency ablation.
7. Surgery for corns, calluses, and debridement of nails.
8. Surgery for nonmalignant warts, moles (boils), and lesions.
9. LASIK surgery.

Urgent Care Center benefit rider

We will pay the Urgent Care Center Indemnity benefit amount, as shown in the chart, for each day the policyholder receives services in an urgent care center as a result of a covered loss due to a sickness or injury. Benefits are not payable beyond the urgent care center calendar year maximum benefit period.

Outpatient Prescription Drug benefit rider¹⁴

We will pay the Outpatient Prescription Drug Indemnity benefit amount, as shown in the chart, for each prescription order for an outpatient prescription drug filled at an appropriately licensed retail or mail-order pharmacy. Benefits are not payable beyond the outpatient prescription drug calendar year maximum benefit amount as shown in the chart. This benefit is not subject to the pre-existing conditions limitation contained in the policy.

In addition to the exclusions and limitations contained in the policy, the following apply to this rider (may vary by state):

1. Any prescription drug filled while a policyholder is hospital confined, in an observation unit of a hospital, in a hospital emergency room or hospital-affiliated emergency care facility, a skilled nursing facility, a hospice unit or facility, or an alcohol, drug, or substance abuse treatment facility or unit;
2. Over-the-counter medications, vitamins, or nutritional supplements;
3. Medications to eliminate or reduce a dependency or an addiction to tobacco including, but not limited to, the cessation or termination of cigarette, cigar, or tobacco smoking or the use of smokeless tobacco, including nicotine products, gums, and transdermal patches;
4. Medications for the treatment of hair loss or for the purpose of regrowing lost hair;
5. Immunization agents, biological sera, blood, or blood plasma;
6. Therapeutic devices or appliances, support garments, and other non-medicinal substances regardless of intended use;
7. Homeopathic medications; and
8. Any medication purchased outside of the United States.

Out-of-Network benefit rider¹⁵

We will pay the Out-of-Network Indemnity benefit amount, as shown in the chart, for each day the policyholder is hospital confined in an out-of-network facility or receiving services in an observation unit of an out-of-network facility, as a result of a covered loss due to a sickness or injury. Benefits are not payable beyond the out-of-network calendar year maximum, as shown in the chart. This benefit is not payable for services received in an out-of-network facility emergency room or emergency care facility or for confinement in an out-of-network facility due to a mental or nervous disorder. This benefit is paid in addition to the daily hospital benefit included in the base policy.

In addition to the exclusions and limitations contained in the policy, the following applies to this rider (may vary by state):

1. Any services received from a health care provider or medical facility that are billed to your primary health care insurance carrier or program as in-network or as a participating provider.

14. This benefit is not subject to the pre-existing conditions limitations in the policy. This optional rider is not available in IL, IN, KS, MN, OR, VA, or WA.

15. Benefits are eligible when a policyholder has a primary health plan that uses a network of contracted providers, like PPOs, HMOs, or similar. This optional rider is not available in IN, MN, MO, NC, OR, PA, TX, VA, or WA.

Valuable discounts

Couples who apply together, save together. Spouses or any two adults who live together will receive a 7% discount on their premiums.¹⁶

Exclusions and limitations

Contestable period

Wellabe has the right to contest an underwritten policy within the first two years. If the policy is contested and we find the medical questions were incorrectly answered on the application according to the medical information we received, the premiums paid will be returned, and the policy will be rescinded. Medical records used to make this decision will only be disclosed in accordance with Wellabe's privacy policy and applicable laws.

Guaranteed issue policies do not have a contestable period.

Pre-existing conditions limitation¹⁷

We will not pay benefits for any loss for pre-existing conditions during the first six months after the policy date. If, after the policy date, a rider is added to this policy, or benefits are increased under the policy or any attached rider, we will not pay the increased benefits for any loss for pre-existing conditions during the first six months after the date the increased benefits become effective.

No benefits will be paid for any expense not identified and included as a covered loss under the policy. The policyholder will be fully responsible for payment of any expense that is not a covered loss. We will not pay benefits for (may vary by state):

1. Any loss that occurs while this policy is not in force.
2. Services or supplies not covered under this policy.
3. Treatment of complications of a noncovered loss.
4. Any treatment for loss that:
 - a. Is not medically necessary;
 - b. Is not prescribed by a physician as necessary to treat a sickness or injury;
 - c. Is determined to be experimental or investigational;
 - d. Is received without charge or legal obligation to pay;
 - e. Would not routinely be paid in the absence of insurance;
 - f. Is received from any family member.
5. Suicide or any suicide attempt, while sane or insane, or any intentionally self-inflicted Injury.

¹⁶. May vary by state. Not available in PA.

¹⁷. May vary by state. In NC, if the policyholder is 65 years or older when a policy is issued, pre-existing conditions will include only conditions specifically eliminated by rider.

6. Alcoholism, drug addiction, or their complications, unless addiction resulted from narcotics prescribed by a physician.
7. Injuries received or caused directly or indirectly while under the influence of a controlled substance, unless prescribed by a physician, or by intoxication as defined by the laws and jurisdiction of the geographic area in which the loss or cause of loss was incurred.
8. Loss to which a contributing cause was the policyholder's commission of or attempt to commit a felony or being engaged in an illegal occupation.
9. Service for which benefits are available for the policyholder under state or federal workers' compensation.
10. Loss that occurs outside the territorial limits of the United States.
11. Any loss resulting from war, declared or undeclared, or actively serving in the armed forces or their auxiliary units, including any country's National Guard or Army Reserve or their equivalent.
12. Durable medical equipment (DME), prosthetics, or orthopedic shoes.
13. Drugs and self-administered drugs.
14. Physical therapy, occupational therapy, speech therapy, or manipulation of the spine, except as specifically provided elsewhere in this policy.
15. Dental care or treatment (except expenses otherwise covered due to injury to sound natural teeth); ordinary dental care, dentures and dental implants; cosmetic surgery, except for reconstructive surgery which is incidental to or follows surgery.
16. Vision surgery, including any complications arising therefrom, to correct visual acuity, including, but not limited to, LASIK and other laser surgery, radial keratotomy services, or surgery to correct astigmatism, nearsightedness (myopia), and/or farsightedness (presbyopia).

17. Hearing services.
18. Any loss resulting from any device for aerial navigation, except as a fare-paying passenger.
19. Any loss resulting, either directly or indirectly, from the policyholder's participation in a high-risk activity for pay, profit, or other commercial purposes, including, but not limited to:
 - a. Sporting event;
 - b. Skydiving;
 - c. Hang gliding;
 - d. Parachuting;
 - e. Piloting experimental or ultralight aircraft;
 - f. Riding in any aircraft not licensed to carry passengers or not operated by a duly licensed pilot;
 - g. Riding in a hot air balloon;
 - h. Bungee jumping;
 - i. Rappelling;
 - j. Professional mountain and/or rock climbing;
 - k. Rodeo participation; and
 - l. Organized contests including, but not limited to, organized contests of speed, go-cart racing, dirt bike racing, demolition derbies, and mountain bike racing. This exclusion also includes the practice, qualification, and/or testing for such activities.
20. Pregnancy, unless due to complications of pregnancy.
21. Abortion, except for medically necessary abortions performed to save the mother's life.
22. Sex change, reversal of tubal ligation, or reversal of vasectomy.
23. Cosmetic or elective procedures that are not medically necessary, including, but not limited to organ donation, elective sterilization, and fertility treatments.
24. Hospital confinement primarily for hospice care, rest care, convalescent care, or for rehabilitation.

Completing the application

Applications must be submitted through MyEnroller. The application and any applicable forms should be completed in their entirety to prevent unnecessary processing delays.

Personal data

When filling in the personal data for the proposed insured(s), please complete all fields and pay special attention to the following:

- Enter each applicant's full first name and middle initial, rather than initials only. Correct spellings of names are essential.
- Enter each applicant's Social Security number. It's crucial to enter their correct, valid Social Security number so we can verify the applicant's identity and prevent fraud. Never enter an invalid Social Security number.
- Enter the entire mailing address for the applicant, including apartment, building, and unit number, if applicable.
- Enter the applicant's telephone number for the telephone interview (if needed).
- Enter the applicant's personal email address.

Signatures and legal designations

Each proposed insured must complete their own signature. A power of attorney (POA), guardian, or conservator may sign on the proposed insured's behalf, but all proper paperwork must be submitted at the time of application (e.g., durable and medical power of attorney, guardianship papers, conservatorship papers). Since Wellabe will need to review the paperwork, instant decisioning will not be available for attorney-in-fact signatures.

It is important to read and confirm the paperwork submitted authorizes the person to purchase insurance and to release the proposed insured's medical information. Do not accept a document just because it says POA, guardianship, or conservatorship.

The POA, guardianship, or conservatorship should e-sign on the insured's signature line. Make sure the attorney-in-fact uses the proper signature format as stated.

Supporting documentation

After the application has been submitted, please send supporting documentation to our underwriting team at **newbusiness@wellabe.com**.

Underwriting requirements and guidelines

Our Hospital Indemnity insurance is guaranteed issue for those between the ages of 60 and 79³ when the application is written, including all base benefits and selected optional riders. If your client falls within the guaranteed issue age range, they will not require underwriting.

All underwritten applications submitted are subject to medical underwriting. Answers to the health questions should be provided by the proposed insured.

If an instant decision can be made, an acceptance or declination will be provided within minutes in MyEnroller.

If an instant decision cannot be provided, the application will be sent to the underwriting team for additional review. You and/or the proposed insured may be contacted for additional information. The following information can be used to determine eligibility.

Application for insurance

Answers provided on the application by the proposed insured will be evaluated to determine whether additional information is needed to make a final decision.

Telephone interview

When necessary, the proposed insured will be contacted to complete a telephone interview regarding their medical history. This recorded interview will help the underwriter determine eligibility. If a telephone interview is needed and the underwriting department is unable to complete it, the application will be closed as incomplete.

Claim history

The underwriter will review any claim history the applicant has with Wellabe and its affiliates and contact the applicant if clarification is needed.

Note: The applicant's entire medical history will be taken into consideration when determining eligibility. Answering **"No"** to all the medical questions on the application does not guarantee acceptance.

3. In MI, guaranteed issue ages are 60 to 85.

Restrictions on issuance

Wellabe reserves the right to refuse coverage on any individual at any time, including, but not limited to, any individual who has multiple policies that have been canceled, lapsed, or exceeded the maximum allowed benefit.

Under no circumstances will a policy ever be issued on an individual who is incarcerated. Wellabe will also refuse to issue a policy when any party to the contract has known ties to terrorism, money laundering, or other illegal activities. Only individuals who are United States citizens, have permanent residency in the United States, or have Individual Taxpayer Identification Numbers (ITINs) may apply.

Appropriate use of replacements

You'll need to become familiar with the definition of replacements and all replacement laws effective in the states where you sell. In general, a replacement involves purchasing a new policy or contract while:

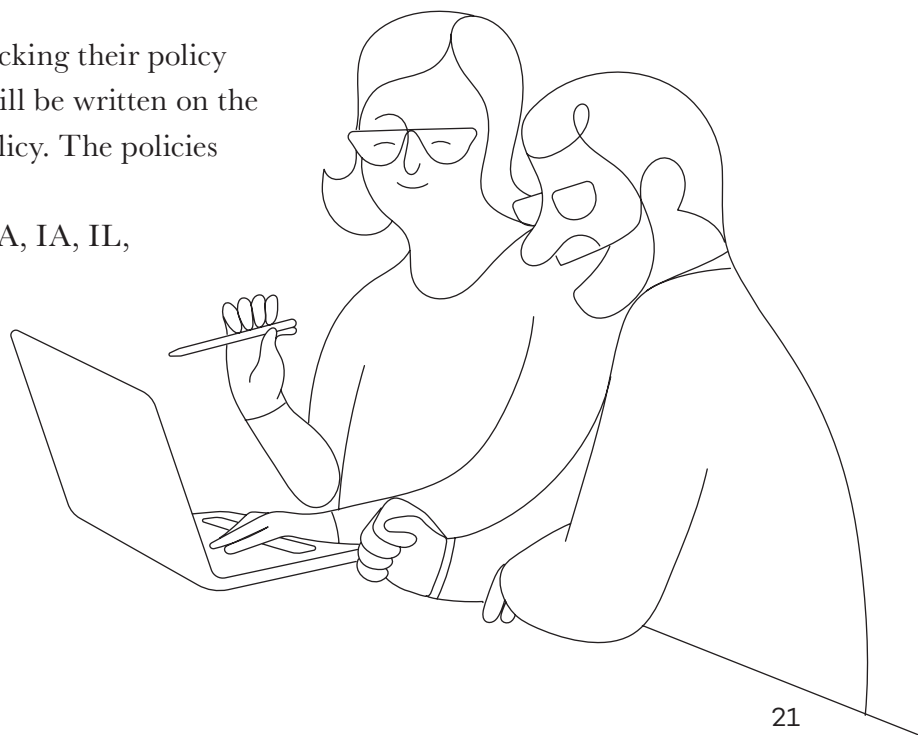

- Discontinuing the premiums on the current policy or contract.
- Surrendering, forfeiting, or terminating an existing policy; amending the existing policy to affect either a reduction in benefits, term, or coverage.

Post-issue benefit changes

Clients can make changes to their HIA63 Hospital Indemnity insurance policy once per calendar year as part of their base plan. Changes include adjusting the daily hospital benefit, altering the maximum benefit period, adding any optional rider available in their state, removing any optional rider that was applied for and issued, and changing the daily benefit or benefit period options for all optional riders. Optional riders can only be added and removed one time per the life of the policy.

Customers can confirm if they qualify by checking their policy forms to see they start with "HIA63." This will be written on the lower-left corner of the policyholder's base policy. The policies will have issue dates of:

- May 1, 2018, or later: AL, AR, FL, GA, IA, IL, IN, KS, KY, LA, MI, MN, MS, MT, NE, NV, OK, OR, PA, TX, WI, WV
- Nov. 1, 2018, or later: NC
- Feb. 1, 2019, or later: AZ, CO, MO, OH, SC, TN, UT, WA, WY
- Feb. 1, 2020, or later: VA

Customers must also be within the appropriate age guidelines for originally applying for a policy if they wish to add any riders. For example, if someone is 88 years old and has a Hospital Indemnity insurance policy, they are unable to add new riders to their plan since the age limit is 85 years old.¹⁸

Any new riders applied for and issued are subject to the pre-existing conditions limitation,¹⁹ unless otherwise noted in the optional riders section of this guide. Previous benefits do not fall under the pre-existing conditions limitation again.

If a client is changing an existing benefit, rates are based off their age at initial issue, rather than their attained age. If a client is adding a new rider, only the new additions will be rated at the insured's attained age.

To make changes, the policyholder should contact Wellabe's Customer Success team by calling **800-228-6080**. Agents may also initiate changes on a customer's behalf by calling Customer Success.

Best interest of proposed insured

Wellabe deems a replacement appropriate when it is in the best interest of the proposed insured. As the agent, it's your responsibility to conduct a thorough interview to ascertain whether a replacement is appropriate.

If the proposed insured may engage in a replacement, you must provide them with appropriate information regarding the nature of the replacement to assist in determining whether it fully meets their specific, stated needs. Factors that may potentially deem a replacement appropriate include:

18. The cancer rider only goes up to age 79.

19. In NC, if the policyholder is 65 years or older when a policy is issued, pre-existing conditions will include only conditions specifically eliminated by rider. In MO, the pre-existing conditions limitation does not apply to new riders.

- The new policy or contract offers benefits that the current policy does not or cannot.
- The additional cost (if any) of the replacement policy is reasonable in relation to the additional benefits provided by the new policy.
- The replacing policy offers comparable benefits but at a lower overall cost.
- You must also be sure that the proposed insured is made aware of the consequences of replacement activity, including the loss of existing policy provisions, protections, rights, and benefits.

Monitoring

Wellabe has implemented a system for supervision and control regarding replacements in states where applicable.

Undisclosed replacements are prohibited by Wellabe. If undisclosed replacements are discovered, there may be consequences. Be aware that if the State Department of Insurance investigates you for unreported or inappropriate replacements, your license may be subject to revocation or suspension, and you may face civil penalties.

Duplication of coverage

An applicant may only have one Hospital Indemnity insurance policy with Wellabe.

Declinable health conditions

This list is not all inclusive, but it includes conditions that may cause an application to be declined. Please email prescreen@wellabe.com with questions.

Note: A prescreen is not a guarantee that coverage can be issued. State variations may apply; please consult the home office for guidance.

- Currently pregnant or undergoing infertility treatments
- In the past 3 months, received home health care, were bedridden or confined to a wheelchair, been confined to a nursing home or were inpatient in a hospital (excluding for childbirth)
- Been treated or diagnosed by a member of the medical profession as having Acquired Immune Deficiency Syndrome (AIDS), AIDS-Related Complex (ARC), or Human Immunodeficiency Virus (HIV) Infection
- In the past 12 months have been treated for or diagnosed by a member of the medical profession with:
 - o Chronic obstructive lung disease (COPD), emphysema, chronic bronchitis, or required oxygen
 - o Chronic liver disease, including but not limited to hepatitis C or cirrhosis
 - o Neuromuscular disorders, including but not limited to Parkinson's disease, multiple sclerosis (MS), or myasthenia gravis
 - o Memory disorders, such as Alzheimer's disease or dementia
 - o Diabetes that requires more than 50 units of insulin per day, requires more than two diabetic medications, or involves any complications including but not limited to peripheral neuropathy, nephropathy, peripheral vascular disease, or diabetic retinopathy
 - o Heart attack, stroke, transient ischemic attack (TIA), heart surgery, bypass, stent placement, or congestive heart failure (CHF)
 - o Kidney failure or required dialysis

- o Autoimmune disorders, including but not limited to ulcerative colitis, lupus, or rheumatoid arthritis
- o Cancer (excluding basal cell or squamous cell skin cancer), malignancy, leukemia, melanoma, or Hodgkin's disease
- o Received advice, treatment, or counseling relating to schizophrenia, psychotic disorder, bipolar/manic depression, or alcohol or substance abuse
- Within the last 12 months:
 - o Been advised by a member of the medical profession to have surgery that has not yet been completed
 - o Been advised or recommended by a member of the medical profession to have treatment, testing, or examinations that have not yet been completed, results have not been received, and/or follow-up treatment has not been completed
 - o Experienced any of the following for which medical advice, diagnosis or treatment has not yet been obtained: coughing blood; vomiting blood; passing blood through either bowels or urine; breast discharge; fatigue; unexplained weight loss; a lump, growth, or tumor in a breast or elsewhere; or a change in a mole or a bleeding mole
 - o Had abnormal laboratory or diagnostic test results that were not later confirmed as normal through follow-up

Issue dates

Unless a specific issue date is requested, coverage is issued the day after the written date. Coverage will be issued effective on any day of the month except the 29th, 30th, or 31st, for administrative purposes. Written dates of the 29th, 30th, or 31st will default to the 1st of the next month.

For underwritten applicants (replacements or non-replacements), a specific issue date may be requested up to 90 days from the written date.

The requested issue date should be at least 30 days after the written date to allow sufficient time to underwrite the case.

Each applicant who is replacing coverage should be told NOT to drop their present coverage until new coverage is issued and delivered to them.

Closed out and declined cases

An application may be closed out or declined under the following circumstances:

- When underwriting information or required forms cannot be obtained.
- When the applicant does not meet the medical underwriting requirements.
- When the applicant has existing coverage that can be updated to provide the requested benefits.

Additional underwriting notes

Submitting corrections

Once an application has been submitted or a policy has been issued, all changes to the contract/policy must be submitted in writing and signed by the proposed insured(s).

Note: Some corrections may require a new application to be submitted, including changes to the applicant's date of birth, Social Security number, address, and answers to health questions.

Changes made to the application form

Agents may print a copy of the application submitted through MyEnroller and make corrections to be added to the existing file. To make corrections, draw a line through the incorrect information and have the proposed insured initial and date the changes. Do not use White Out or another correction product over the incorrect information. You may submit corrections to Underwriting services at **newbusiness@wellabe.com**.

Policy delivery

Wellabe will mail every policy directly to the policyholder.

Free-look period

The 30-day free-look period begins when the policy is delivered to the policyholder.²⁰

²⁰. May vary by state.

Premium payments

Wellabe accepts only preauthorized bank withdrawals and credit card payments, including Social Security and Supplemental Security Income prepaid Direct Express debit cards from Visa or Mastercard. This policy makes paying premiums easy for the proposed insured and helps improve the persistence of your business. The Premium Withdrawal Authorization form must be completed with the application so the ongoing premiums can be paid.

Initial premium

The initial premium paid by credit card or through automatic bank withdrawal will be drawn upon approval and activation of the policy or on the specified draft date as noted on the Premium Withdrawal Authorization form.

If an insured has requested a specified draft date, you have the ability in MyEnroller to select a specific date — from the 1st through the 28th — to withdraw the premium every month. If a specified draft date is not selected, the default draft date will be the day of the effective date.

Premiums are drafted in the same month as the policy is effective; therefore, unless a future effective date is chosen, the first premium may draft immediately upon activation and the second premium will draft on the requested draft date for subsequent premiums.

Future preferred effective dates must be within 90 days of the written date. If a preferred effective date is not chosen, the policy will default to the day after the written date.

Please be advised, all premium payments must be from a personal account from the applicant or payor. Wellabe does not allow premiums to be paid by agents, employers, or other third parties (e.g., foundations, associations, etc.). You are not authorized to collect cash premiums at any time. You may not loan funds to the customer for premium payments.

Initial payment processing for Hospital Indemnity applications

Initial payment method	When the payment is processed
Bank withdrawal	Drawn after effective date on the specific draft date
Credit/Debit card	Drawn after effective date on the specific draft date

Renewal premiums

All renewal premiums must be paid using credit card or authorized bank withdrawal. The Premium Authorization Withdrawal form gives the payor the ability to select a specific date, from the 1st through the 28th, each month for us to withdraw premium. If a draft date is not selected, the default draft date will be the day of the effective date.

Past due/Grace period

On the renewal date, if no premium has been received or the modal premium fails for any reason, a reminder notice of premium due is sent to the payee and the policy will become past due. If no premium is received, the policy will lapse at the end of the grace period. All plans have a grace period when coverage will remain in effect. It is 31 days on all policies.

Claims

How to file a claim

At Wellabe, we make it easy for your clients to submit their claims. They can file claims through our Wellabe: Be Well mobile app and by email, mail, or fax. Once the claim is submitted, they can check the claim status in the customer portal or the mobile app. The claim form can be found on the agent portal on the Forms page.

Wellabe:

Be Well mobile app: Available on the Apple App Store and the Google Play Store

Email:

claims@wellabe.com

Mail:

Wellabe, Inc.
P.O. Box 21660
Eagan, MN 55121-0660

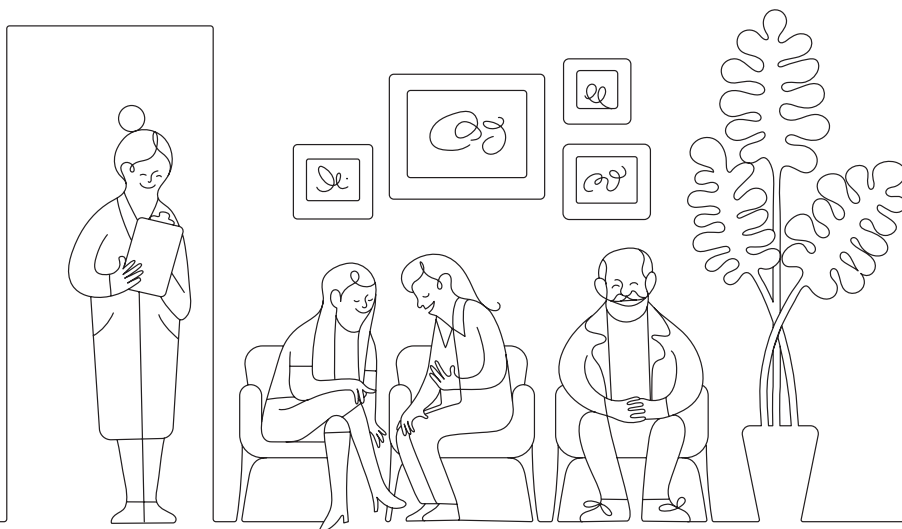

Fax:

402-496-8199

Best practices

Your clients can help speed up the claims process for everyone by following a few simple guidelines.

- They should get an itemized bill or a standardized billing statement (UB04 or HCFA1500) from their provider to submit with the claim for fastest claims processing.
- If they don't have one of those forms,²¹ they need to be sure the documentation they submit has the ICD diagnosis code (reason for treatment).
- Clients need to supply treatment/service dates and treatment/procedural codes.
- They should understand what the Assignment of Benefits means for their claim.
- You can help them know which services are covered by their Hospital Indemnity plan and which services are not covered, so they don't submit claims that are ineligible.

21. In KS and MO, a UB04 or HCFA1500 is required.

Helpful tips for policyholders

- They can access our Hospital Indemnity Claim Form on the customer portal or mobile app.
- They should not send canceled checks, payment receipts (other than receipts for prescriptions under the Outpatient Prescription Drug benefit rider), or balance-forward bills. We require the forms and information above to pay their claim, if it's covered.
- If the provider is billing us directly and the policyholder signed an "Assignment of Benefits" with their provider, we'll pay the provider.
- If their plan includes transportation and lodging benefits, they need to fill out sections 1, 2, and 4 of the claim form and include their receipts.
- If their plan includes Lump Sum Cancer benefits, they need to fill out sections 1, 2, 5, and 6, and include the pathology report from their physician.
- If their plan includes Outpatient Prescription benefits, they need to fill out sections 1, 3, and 6 of the claim form and include their receipts.

Claims timing and their policy

If a claim happens within the first two years of a policy, we may need a little more information to process it. That's because the policy includes:

- A six-month pre-existing condition limitation, and
- A two-year contestability period (standard for most insurance policies)

If we need anything extra, and the policyholder already signed the Claims HIPAA Authorization Form, we'll work directly with their medical provider to get the information we need. We'll also keep them updated every step of the way.
